

SRISHTI JHA

13424 Deercreek Trail • Frisco, TX 75035 • (468) 880-3403 • jhasrishti@tamu.edu

EDUCATION

Texas A&M University, College Station, TX

Sophomore

Bachelor of Science in Electronic Systems Engineering Technology

TECHNICAL SKILLS

Programming Languages: Python, HTML, CSS

Dev Tools & Environments: VS Code, GitHub Copilot, Windows Terminal, Cursor

Design & Prototyping Tools: Figma, Adobe XD, Sketch

CAD: SolidWorks

Currently Building: C/C++ (embedded systems/microcontroller programming) — in progress via independent hardware project

Lab & Technical Methods: PCR, RT-qPCR, cell culture, fluorescence microscopy (BSL-2 protocols)

EXPERIENCE

CitiusTech

Summer 2025

Tech Summer Intern

- Designed UI/UX for a healthcare solutions demo dashboard using Figma, Sketch, and Adobe XD, translating stakeholder requirements into clean, usable interfaces
- Wrote Python to help implement and support dashboard functionality

MD Anderson Cancer Center, Houston, TX

May 2025 – Aug 2025

Research Assistant

- Completed 400+ hours of in vitro cancer research investigating olaparib treatment, contributing to a research poster presentation
- Designed and executed experiments involving cell culture, PCR, RT-qPCR, and fluorescence microscopy under BSL-2 conditions

TECHNICAL PROJECTS

DreamBreathe – microCPAP Machine

Ideathon

- Conceptualized a medical device product with a companion daily-use app
- Built the physical device mock-up in SolidWorks and the app interface mock-up focused on UI, design, and layout

NASAorbit – Vital Sign Tracking System

Build4Good Hackathon

- Built a website/app interface to track and record astronaut vitals over time; independently owned UI, design, and layout
- Created the pitch deck and project mapping for the team

LEADERSHIP & INVOLVEMENT

WIRED (Women in Robotics Engineering Development)

2025 – Present

Eco-marathon Competition Team

- Collaborate on design, testing, and optimization of energy-efficient vehicle systems
- Support prototyping and analyze performance data to improve efficiency
- Planned and ran WIRED's outreach booth at Night at Zach, Texas A&M's campus-wide engineering showcase

SWE (Society of Women Engineers)

2025 – Present

LEAP Mentorship Program

- Participate in mentorship and workshops on engineering career development

SASE (Society of Asian Science & Engineering)

2025 – Present

Committee Member

- Help organize professional development and networking events
